CLINICAL APPROACH

Dr Elliott is an OB/GYN (women's health) specialist with Board Certification in Maternal-Fetal Medicine (high risk pregnancies) He is focused on the total health of pregnant women including maternal mental health in pregnancy and after delivery, dietary education, and diabetic management before, during, and after delivery.

ABOUT ME

I am an entrepreneur who enjoys starting interesting, and worthwhile businesses. I am a work-aholic starting at 4am until 5 or 6pm 7 days a week. I am an avid Arizona Cardinals fan, but my passion is baseball. I love the beach – under an umbrella reading a book.
